Insuring a more open world

Press Release

Issy-les-Moulineaux, 17 November 2026

CNP Assurances ranked no. 1 insurer worldwide by ISS ESG for its sustainability performance

CNP Assurances becomes the world's leading insurer among the 222 insurers assessed by ISS ESG on their ESG performance.

This new distinction recognises the Group's long-term commitment to sustainable development and its ability to integrate environmental, social and governance issues into its work as an insurer, long-term investor and responsible company.

Leading performance among 222 insurers worldwide

In the first rating since 2022 by ISS ESG, a specialist branch of Institutional Shareholder Services, CNP Assurances came out on top in the global insurance sector. The ISS ESG rating is a non-financial assessment tool that measures the environmental, social and governance (ESG) performance of businesses. CNP Assurances is the only insurer in the world to obtain a B rating, the highest given by ISS ESG in the sector. The Group has also been attributed "Prime" status, assigned by ISS to companies whose sustainability performance meets or exceeds the requirement threshold determined for their industry.

Top-level performance on key issues

For ISS ESG, CNP Assurances outperforms the sector on several issues, such as sustainable investment, climate change and customer responsibility. The Group also obtained A or A+ assessments in several areas, including the integration of environmental and social criteria into investments, transparency on sustainable investment products, non-discrimination, and the mental health of employees.

CNP Assurances ranks world number one for the second time

This number-one position comes just a few months after that obtained by CNP Assurances in the Sustainalytics ESG ranking in August 2026. CNP Assurances is the world's number-one insurer in two distinct ESG ratings, Sustainalytics and ISS ESG.

This dual recognition reinforces CNP Assurances' **Lead for Impact** strategy and the consideration of environmental and social issues at the heart of its business model. It bolsters the Group's ambition to make an even more positive contribution to major environmental and societal transitions while creating sustainable value for all its stakeholders.

Sarah Bouquerel

Group Chief Financial and Non-Financial Officer, Deputy Chief Executive Officer of CNP Assurances

"After our first place in Sustainalytics' ESG rating this summer, the ISS ESG distinction stands as powerful recognition of our long-term commitment to sustainability. Being recognized as the world's number-one insurer in two distinct ESG ratings reinforces the strength of our approach and our collective efforts in the past several years. Our performance is measured not simply by our financial results. It is also environmental and social. These results confirm our ambition to anchor CNP Assurances' global leadership in sustainability, as committed to through Lead for Impact."

About CNP Assurances Group

The CNP Assurances Group is a property and personal insurer with more than 8,700 employees. It generated net income of €1,492m in 2025.
