CNP Patrimoine launches CNP Ethique its conviction investment offering

For savers wishing to adopt an ethical approach while ensuring high performance objectives and diversification, CNP Patrimoine – CNP Assurances' entity dedicated to wealth management clients – presents its range of investment vehicles selected in accordance with ESG criteria.

To mark responsible finance week (27 September to 4 October 2018), CNP Patrimoine will present its CNP Ethique offering so it can share the CNP Assurances group's solid commitment to responsible investing with its distributor partners and their clients. This range of products will enable them to include a selection of 22 investment vehicles in their life assurance and multi-asset capitalisation contracts (the CNP Patrimoine range). These vehicles meet the Morningstar Sustainable-rated ethical and responsible criteria.

"By focusing their savings on companies which adhere to environmental, social and good governance criteria, investors give them meaning, but without sacrificing performance", says Marine de Bouchony, co-director of CNP Patrimoine.

"The CNP Ethique offering meets growing demand on the wealth management market for long-term diversification tools", says François Guilgot, co-director of CNP Patrimoine.

The CNP Ethique range is already available from CNP Patrimoine's partners, private banks, independent financial adviser platforms and family officers.
