

## **CNP Assurances is supporting SAUV Life's "Les Sam Sauv" scooters for dealing with Covid-19**

**CNP Assurances increases its Foundation's support to SAUV Life to assist with the rollout of its "Les Sam Sauv" programme, scooters dedicated to dealing with Covid-19.**

Already a partner of the SAUV Life programme "citizen rescuers relay of SAMU" (French medical emergency service), which has stopped since the COVID-19 epidemic, CNP Assurances, via its Foundation, is now supporting a new initiative by the association. This is a scheme involving four scooters. It enables specially trained healthcare professionals to go to the home of people calling the SAMU in order to make an initial assessment and therefore better direct patients. Apart from the acquisition of scooters which has already been carried out, CNP Assurances' support covers the training of healthcare professionals with respect to actions related to COVID-19, equipment and the operation of the scheme.

Since 2009, CNP Assurances has been involved in the "Saving Lives" area through its Foundation. Wishing to strengthen its commitment by drawing on the contribution of new technologies that promote citizens' action, since 2019 the CNP Assurances Foundation has been the partner of the SAUV (Savoir Agir face à l'Urgence Vécue - Knowing how to act in an emergency) association, at the origin of the collaborative geolocation application SAUV Life, a support for citizen intervention in medical emergencies. At present, SAUV Life relies on 400,000 rescue citizens covering 52 departments.

## About CNP Assurances

A leading player in the French personal insurance market, CNP Assurances operates in 19 countries in Europe and Latin America, where it is very active in Brazil, its second largest market.
